

Napkori Erdőgazdák zRt.

PRICE LIST

Napkori Erdőgazdák zRt. has 15,555 hectares of habitat that is geographically diverse and rich in game. The center of our hunting area is close to Nyíregyháza, in Napkor, which is easily accessible from the M3 motorway. We rear 10,000-15,000 pheasants and about 8,000 mallards every year, but since we have more than 15,000 hectares of land, visitors will find almost all species of game that can be hunted in Hungary in their respective hunting seasons.

In addition to small game, our roe deer buck hunting is outstanding, with the opportunity to shoot a significant number of individuals every year. The stag from which the tenth largest trophy in Hungary came was shot on our land in 2005. The trophy weighed in at 736 grams (205.92 IP).

Fallow deer and mouflon add colour to the hunting opportunities we offer, and although red deer were not originally found in the area, they have now started appearing and visitors can hunt them.

Naturally, we are not just about hunting, and we also offer exclusive accommodation (www.robiniarooms.hu) and excellent food (www.napkeltepanzio.hu).

PHEASANT HUNTING:

Dates (season): 1 October until the last day of February

Price: €25 per bird shot (irrespective of the sex)

Visitors can shoot between 100 and a few thousand pheasants per hunt.

MALLARD HUNTING:

Date (season): 15 August until the last day of February

Price: €16 per bird shot

With prior agreement, it is also possible to hunt both types of bird on the same day as long as they are both in season at that time.

During the hunt, we can provide any services in the hunting area as needed.

Since no two hunts are the same, please feel free to contact us (via the contact details provided) with your unique needs and ideas and we will send you our personalized offer.

Comment:

The prices do not include VAT, which is charged separately.

Please note that you can book hunts with Napkori Erdőgazdák zRt in person or in writing. Hired hunting can only be done by hunters with a valid hunting license and a firearms license.

Antlers are weighed with the skull cap attached. Payable weight is the weight determined at the official trophy assessment - calculated from 24 hours after the trophy was simmered.

For Mouflon, the calculation is made based on the average length of the horns measured on the outer curve as part of the official trophy assessment.

The damage fee for trophy game is 50% of the amount to be paid for the trophy weight/horn length estimated by the professional hunting guide.

Accompaniment by SUV is €30 per person.

Trophy assessment is gross €30 per trophy.

Hunting permits for foreign guests are €120 gross/person/full time of hunting.

Trophy delivery is invoiced based on agreement.

Game meat is reimbursed based on the daily price.

Shooting does is subject to individual package prices for the hunting season.

When invoicing in Hungarian forints, the Hungarian National Bank currency exchange rate valid on the day of performance shall be used.

We reserve the right to occasionally deviate from the prices indicated on the price list.
